

WE ARE COMMITTED

to environmental care and the country's sustainable development, delivering solutions for waste recovery and treatment that are integrated and safe.

INTEGRATED ENVIRONMENTAL SOLUTIONS

According to the needs of each company.

Hidronor

More than 25 years leading the waste management industry, delivering environmental solutions for the recovery, soil remediation and treatment of waste, with presence in all sectors of the national economy.

We deliver a high coverage across all Chile with our treatment and final disposal plants located in the country's north, central and south zone.

In addition, we have a landfill in the BioBio region. Our services include consulting, analysis and waste characterization through certified laboratories and highly qualified and committed personnel to find the best solution for industrial waste management, contributing to the country's development, growth and sustainability.

NATIONAL COVERAGE

Present in all sectors of the country.
